Question Regarding Hazelbrook Emergency Planning and Lam Research Chemical Release Plan

Jarvis Gomes <jgomes@ttsd.k12.or.us> Thu, Sep 17 at 2:48 PM
To: Andrea Galvin <galvincreative@gmail.com>

Dear Ms. Galvin,

Thank you for reaching out and for your commitment to the safety of our students and staff at Hazelbrook Middle School. We appreciate the opportunity to address your questions directly:

1. **Formal Notification:** Neither TTSD nor Hazelbrook has received formal notification establishing the school within a designated emergency-planning zone for Lam Research.
2. **County Plan Briefing:** We have not been provided a copy of or briefed on Washington County's Chemical Facility Off Site Release Plan for the facility.
3. **Response Plans & HVAC Control:** We follow standard shelter-in-place protocols, and designated staff are fully trained to isolate Hazelbrook's HVAC system during air-quality hazards. We also maintain established on- and off-site reunification plans.
4. **Drills & Exercises:** We regularly conduct safety drills using the "I Love U Guys" Foundation framework, this includes drills such as "Secure".
5. **Interagency Coordination:** We collaborate with local emergency responders and TVF&R on general safety, but no dedicated coordination session has been held for a Lam Research release.
6. **Land-Use Application:** The district was not formally consulted regarding Lam Research's proposed Building B expansion (AR26-0002).

Thank you again for your thoughtful inquiry and active engagement. Feedback from involved parents helps keep our school community strong, and we truly appreciate you taking the time to connect with us.

Thanks,
Jarvis

Jarvis Gomes
Operations Administrator
Tigard-Tualatin School District
