Hi Suzannah,

Thank you very much for the update. I'm sorry to hear about the delays. I'll work on confirming that those dates work for rescheduled hearings and get back to you shortly.

Best,

Steve Koper

Subject: Lam dates

Hello Kim and Steve,

Thank you again for your help and coordination on this project. Lam has unfortunately run into some delays that have necessitated moving our hearing dates. Would 5/21 and 6/4 work for IMP and AR, respectively?

I believe this will also require another extension to the 120-day clock. Please let us know many days you need and we will grant that in writing.

Additionally, once the hearing is scheduled we'd like to coordinate with you some more to ensure that all CIO's get the new hearing notice.

Thank you again,

Suzannah Stanley
